WHY THUNAI?

A thousand questions. One place for the answers.

Every dining table in every home hears the same questions — is today a good day? Which course for our son? When will our daughter's alliance come? When do we open the shop?

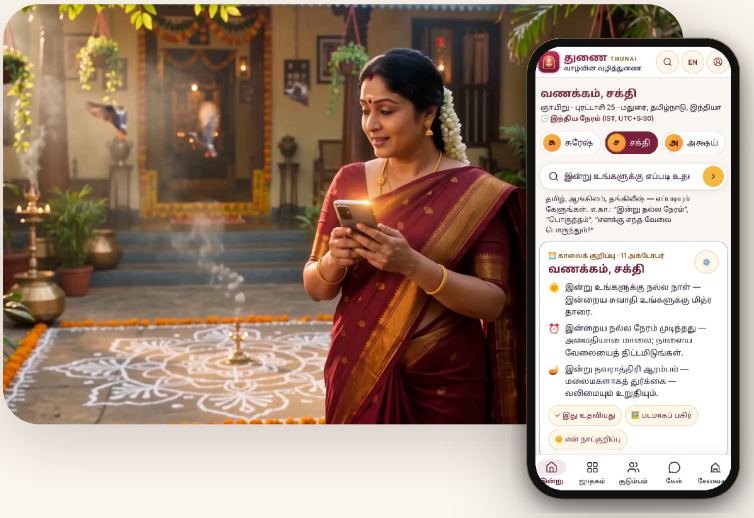

No per-minute phone calls. No scary list of remedies. No charts nobody at home can read. **Your jathagam — in your language — with the reason.** Daily palan is free, every day.

- ? **Is today a good day for us?**
- ? **Which course after the 12th?**
- ? **When should we start the business?**
- ? **Which direction will the alliance come from?**
- ? **Which date for the house warming?**

The question is yours. The answer is your chart's.
The decision — always yours.
